## ENVIRONMENTAL POLICY

The Directors of Nason Davis Eesti Ltd and the board members recognise the absolute importance of environmental impact.

Nason Davis Eesti Ltd makes strenuous efforts to follow the commitments of the industry's environmental best practice to ensure the ultimate sustainability of the world's forests.

Our parent company Nason Davis Ltd. is a member of the U.K. Timber Trade Federation (TTF). The TTF is the industry's spearhead in combating illegal logging and poor forestry practice, we are both united by this common goal.

Nason Davis Eesti Ltd became FSC® Certified in February 2004. Our certification code is SW-COC-001142. Nason Davis Ltd obtained FSC Certification in 2005, the certification code is SW-COC-001538.

Since 2004 we have been promoting FSC Certification to our supplying sawmills in order to widespread environmentally friendly and sustainable development in the Estonian timber industry.

Our suppliers work in co-operation with Estonian Forest Management Centre (RMK) and the state forest management activities correspond in full to the Estonian Sustainable Forest Management Standard and meet the requirements of international certification systems FSC and PEFC.

We are committed to the environment because only mutual effort, care and co-operation will enable our industry to truly claim to be the world's only natural renewable source.
